what are the topics in react js

Here's a complete list of **important topics in React.js**, especially useful if you're learning React for **projects, interviews, or web development**:

◆ 1. React Basics

- What is React?
- Why React?
- SPA (Single Page Applications)
- Setting up React with **Create React App** or **Vite**
- Folder structure of a React project
- JSX (JavaScript XML)
- Functional vs Class components

◆ 2. Core Concepts

- **Components** (Function and Class)
- **Props** (Passing data to components)
- **State** (useState hook)
